If issue is a user story, please tag with `story` and fill out table from Functional Specification below. Changes to this will be rolled into new versions of the Functional Specification.

ID	Priority	Platform	As a...	I can...	So that ...
S05.0.0	3	P	User	See how many major/minor POI I haven't yet unlocked on the main and sub maps	I can view my progress for that area
--	--	--	--	--	--
S05.1.0	3	P	User	Tap the unlock bar to see all the locations/rewards	I can view my overall progress
S05.2.0	2	P	User	See a leaderboard for the local area and between friends	Compare my progress

Updated version is

ID	Priority	Platform	As a...	I can...	So that ...
S05.0.0	5	P	User	User login and username selection	Keep track of progress for each individual user
--	--	--	--	--	--
S05.1.0	5	P	Administrator	When a user is created, get the POI xml file	A new user has a complete list with all POIs locked
S05.1.1	5	P	Administrator	When a returning user logs in, get their POI progress information from Firebase	An existing user can load their progress after logging in
S05.1.2	3	P	User	See how many POIs/sPOIs I haven't yet unlocked on the main and sub maps	I can view my progress for that area
S05.1.2	3	P	User	Tap the unlock bar to see all the locations/rewards	I can view my overall progress
S05.2.0	2	P	User	See a leaderboard for all users	Compare my progress

🚧  laurenkt added this to the **Iteration 2** milestone 13 days ago

S05 - Implementation - When a user is created, get the POI xml file. A new user has a complete list with all POIs locked. When a returning user logs in, get their POI progress information from Firebase. An existing user can load their progress after logging in

 jw1857 changed the title from **S05 See how many major/minor POI I haven't yet unlocked** to **S05 Log into the application and choose my username** 13 days ago
